SUBJECT INDEX

VOLUME 33

Acid-fast bacilli
  fluorochrome staining
    concentration of sputum by cytocentrifugation for preparation of smears for detection does not increase sensitivity of stain, 1915
Acid-fast organisms
  UV ParaLens adapter
    detection, 239
Acinetobacter calcoaceticus-A. baumannii complex
  restriction endonuclease analysis
    identification of isolates, 1108
Acinetobacter spp.
  genomospecies 3
    clinical and epidemiological investigations in a neonatal intensive care unit, 1567
  pulsed-field gel electrophoresis
    comparison with ribotyping for molecular typing, 1402
  ribosomal DNA restriction analysis
    identification of genomic species, 11
  ribotyping
    comparison with pulsed-field gel electrophoresis for molecular typing, 1402
Actinobacillus actinomycetemcomitans
  PCR
    identification in subgingival plaque, 3102
  virulent clonal types
    evidence for absence in northern Europe, 395
Actinobacillus pleuropneumoniae
  latex agglutination testing
    simplified procedure for preparation of sensitized latex particles to detect capsular polysaccharides, 2297
Actinomyces spp.
  identification
    evaluation of API An-IDENT and RapID ANA II systems, 329
  selective media
    isolation from medical and dental specimens, 1613
Adenovirus
  gastroenteritis
    patients admitted to Australian pediatric teaching hospital from 1981 to 1992, 131
  types 2, 8, and 37
    association with genital infections in patients attending sexually transmitted disease clinic, 2728
Aeromonas trota
  V. cholerae O139 Bengal
    analysis of cross-reacting strains, 3119
AIDS patients
  Candida spp.
    molecular epidemiology of isolates showing different fluconazole resistance profiles, 769
  M. avium
    variations in susceptibilities of different strains isolated from same patient, 1008
  toxoplasmosis
    quantitative competitive PCR with bronchoalveolar lavage fluid for diagnosis, 1662
Alloiococcus otitidis
  recurrent otitis media
    characterization of ear fluid isolates from patients, 2876
Alternaria longipes
  phaeohyphomycosis
    cutaneous infection in an immunosuppressed patient, 2774
Amplification methods
  Gen-Probe
    diagnostic value compared with that of culture, 2699
Anaerobic bacteria
  Presumpto Plate method
    identification, 1196
  susceptibility testing
    E test and Oxyrase agar culture compared by using erythromycin, azithromycin, clarithromycin, and roxithromycin, 1366
Anaerobic blood culture bottles
  bacteremia and fungemia
    controlled evaluation of BacT/Alert Standard and FAN for detection, 2265
Anaerobic organisms
  Gram staining
    techniques for controlling variability, 755
Anaplasma ovis
  enzyme-linked immunosorbent assays
    detection of infection in goats by major surface protein 5 competitive inhibition assay, 675
Arbitrarily primed PCR
  E. coli O157:H7
    DNA fingerprinting by using templates from boiled cultures, 1534
  S. aureus
    multicenter evaluation for typing of strains, 1537
Arcobacter butzleri
  DNA probes
    16S rRNA based, 1691
Arcobacter spp.
  DNA probes
    16S rRNA based, 1691
Argentine hemorrhagic fever
  reverse transcriptase PCR
    rapid diagnosis, 1327
Ascomycetes
  C. strumarium
    cause of fatal cerebral mycoses, 2692
Aspergillosis
  invasive
    specific antibody detection by analytical isoelectrofocusing and immunoblotting methods, 982
  sandwich enzyme-linked immunosorbent assays
    detection of galactofuran in patients, 497
Aspergillus fumigatus
  Cu, Zn superoxide dismutase
    specific recognition by immune human sera, 495
  isoenzyme analysis
    comparison of typing methods, 1596
  random amplified polymorphic DNA analysis
    comparison of typing methods, 1596
  restriction endonuclease analysis
    comparison of typing methods, 1596
  variability
    phenotypic and genotypic analysis, 2567
Aspergillus granulosus
  first reported case
    cardiac transplant patient, 471
Aspergillus spp.
  PCR
    detection of DNA in bronchoalveolar lavage samples by competitive assay, 1164
  susceptibility testing
    microtiter method, 661
Astroviruses
  enzyme immunoassays
    typing from clinical isolates, 797
  nucleotide sequencing
    typing from clinical isolates, 797
Authors' corrections
  S. pneumoniae
    study of five DNA fingerprint techniques, 2804
Azoles
  T. glabrata
    susceptibilities by microdilution colorimetric and macrodilution broth assays, 2612

Bacillus anthracis
  pulsed-field gel electrophoresis
    genetic variability, 1847
Bacillus cereus
  epidemiology
    phage typing as a tool in outbreaks of food poisoning, 636
Bacillus licheniformis
  prosthetic aortic valve endocarditis
    case report, 3070
Bacillus macerans
  brain abscesses
    penetrating periorbital injury, 1950
Bacteremia
  B. holmesii sp. nov.
    association, 1
Bacterial antigen testing
  cerebrospinal fluid
    quality assurance study, 1141
Bacteroides fragilis
  capsular diversity
    detection among isolates by monoclonal antibodies, 2647
Bartonella henselae
  cat scratch disease
    characterization of 17-kDa antigen, 2358
  detection methods
    B. henselae detected from human immunodeficiency virus-positive patient, 2107
  prevalence
    domestic cats in California, 2445
Bartonella (*Rochalimaea*) *henselae*
  feline bacteremia
    intraerythrocytic presence, 1655
Bartonella spp.
  bacteremia
    prolonged infection in cats associated with cat-scratch disease patients, 3245
  endocarditis

infection in a dog due to novel subspecies, 154
repetitive element PCR
genomic fingerprinting for distinguishing species and isolates, 1089
Bartonella (*Rochalimaea*) spp.
citrase-synthase gene
use of partial sequence for identification, 1879
pulsed-field gel electrophoresis
inter- and intraspecies identification, 1573
(1→3)-β-D-Glucan
levels
patients with candidiasis, aspergillosis, and cryptococcosis, 3115
Beta-hemolytic streptococci
latex agglutination tests
modified nitrous acid extraction kit for grouping, 1016
Birnaviruses
PCR
detection and identification of aquatic viruses, 835
Blastomyces dermatitidis
random amplified polymorphic DNA assays
detection of genetic diversity in clinical isolates, 2171
Blood culture bottles
Malassezia spp.
improved detection by lipid-supplemented Peds Plus, 1005
VITAL automated system
detection kinetics for positive bottles, 2098
Blood culture methods
automated instruments
continuous quality improvement for introduction, 1185
BACTEC 9240
value of terminal subcultures, 1385
Blood culture systems
B. abortus
evaluation and comparison for bacteriological isolation, 868
BacT/Alert
clinical comparison with Isolator, 1787
comparison with BACTEC 9240 in an adult hospital, 1905
comparison with Signal, 313
detection of bacteremia and fungemia, 978
BACTEC 9240
comparison with BacT/Alert in an adult hospital, 1905
evaluation by using high-volume aerobic resin media, 2451
BACTEC 9240 Aerobic/F resin bottle
comparison with Isolator for detection of bloodstream infections, 2525
BBL Septi-Chek
comparison with Difco ESP 384 for detection of infections in pediatric patients, 1084
Difco ESP 384
comparison with BBL Septi-Chek for detection of infections in pediatric patients, 1084
failure to detect *C. neoformans* in clinical specimens, 3031
FAN
detection of bacteremia and fungemia, 978
Isolator
clinical comparison with BacT/Alert, 1787
comparison with BACTEC 9240 Aerobic/F resin bottle for detection of bloodstream infections, 2525
S. typhi
evaluation and comparison for bacteriological isolation, 868
Signal
comparison with BacT/Alert, 313
Blood cultures
bloodstream infections
evaluation of BACTEC Plus Aerobic/F and BacT/Alert Aerobic FAN bottles for detection, 2856
Bluetongue virus
anti-idiotypic antibody
potential serodiagnostic reagent for detection of infection, 850
Bordetella bronchiseptica
human infections
relationship to contact with infected animals, 2002
nonradioactive colony lift-hybridization assays
detection of infection in swine, 2675
Bordetella holmesii sp. nov.
gram-negative bacteria
association with bacteremia, 1
Bordetella pertussis
monoclonal immunofluorescent reagent
evaluation and validation for direct detection, 2868
pulsed-field gel electrophoresis
analysis of isolates from an epidemic, 3083
Borna disease virus
enzyme-linked immunosorbent assays
detection of antibodies, 348
PCR
detection of RNA in formalin-fixed, paraffin-embedded brain tissues by nested version, 821
Borrelia andersonii sp. nov.
group 21038
proposal of new designation, 2427
Borrelia burgdorferi
enzyme-linked immunosorbent assays
sensitivities and specificities of three compared, 2260
genotypic and phenotypic analysis
isolates from The Netherlands, 119
I. ricinus
expression of outer surface proteins A and C, 1867
immunohistochemical staining
comparison with in vitro culture and PCR for detection in tissue of experimentally infected animals, 2328
in vitro growth
inhibition of sera from OspA-vaccinated dogs, 2745
Lyme disease
simultaneous presence of different, distinct genospecies in biological fluids of patients, 602
molecular analysis
genotypic and phenotypic characterization of isolates from ticks and small animals in Illinois, 2304
sensu lato
analysis and comparison of plasmid profiles, 2679
characterization of Finnish isolates, 1989
molecular analysis of genes encoding outer surface protein C, 1860
molecular typing by PCR-restriction fragment length polymorphism analysis, 589
outer surface protein C gene sequence analysis of isolates from Japan, 2415
phenotypic analysis of OspC by monoclonal antibodies and relationship to genospecies and OspA serotype, 103
simultaneous detection and genotyping of three genomic groups, 3091
variable serum immunoglobulin responses against different species, 1473
urban environments
white-tailed deer with infected ticks and antibodies in Connecticut, 541
Borrelia japonica
spirochetes
identification after isolation from wild rodents in Japan, 1392
Borrelia spp.
Apodemus speciosus mice
mixed infections in Japan, 490
Bovine viral diarrhea virus
antigenic diversity
field isolates and vaccine strains, 2159
PCR
rapid detection by using RNA extracted from assorted specimens and one-tube reverse transcription assay, 287
Broth cultures
bacteria
clinical impact when recovered, 161
fungi
clinical impact when recovered, 161
Broth formulations
anaerobic bacteria
survival in various thioglycolate and chopped meat broth formulations, 2505
Broth macrodilution methods
National Committee for Clinical Laboratory Standards
quality control guidelines for testing of amphotericin B, fluconazole, and flucytosine, 1104
Broth macrodilution testing
azoles
comparison with Etest for susceptibility testing, 535
Broth microdilution methods
antifungal agents
comparison of visual and spectrophotometric methods of MIC endpoint determinations, 1094
in vitro fungal isolates
initial use in a clinical microbiology laboratory, 1884
S. pneumoniae
detection of penicillin-resistant strains, 1804
Brucella abortus
blood culture systems
evaluation and comparison for bacterio-

logical isolation, 868
Brucella AMOS PCR
differentiation of vaccine strains S19 and RB51, 1640
Brucella spp.
PCR
specific detection of DNA, 615
single-step PCR
detection from blood and milk of infected animals, 3087
Brucellosis
bovine
specific diagnosis based on in vitro antigen-specific gamma interferon production, 706
indirect enzyme-linked immunosorbent assay
evaluation with milk samples for diagnosis of diary cattle, 3198
microagglutination tests
evaluation as supplementary diagnostic method, 2166
PCR
evaluation with milk samples for diagnosis of diary cattle, 3198
serum agglutination tests
evaluation as supplementary diagnostic method, 2166
Burkholderia cepacia
cystic fibrosis
investigation into whether natural environments present a potential hazard, 1001
Burkholderia (Pseudomonas) cepacia
auxotrophy
cystic fibrosis patients, 2192
biochemical and genomic typing
analysis of strains isolated in nosocomial outbreak, 2353
PCR
comparison of different approaches for characterization of isolates, 3304
Burkholderia pseudomallei
enzyme immunoassays
quantitation of seminested PCR with and without solution hybridization, 2131
random amplified polymorphic DNA analysis
subdivision of ribotypes into multiple types for insight into epidemiology, 1687

Campylobacter coli
restriction endonuclease DNA profiling
differentiation from *C. jejuni*, 1136
Campylobacter fetus
PCR-DNA probe method
identification, 1360
pulsed-field gel electrophoresis
analysis of strains, 1676
Campylobacter jejuni
alpha- and beta-hemolytic-like activity
detection, 729
identification
species-specific gene encodes a membrane protein, 855
immunogenic outer membrane protein
identification and characterization, 2826
molecular subtyping schemes
serotypes HS1 and HS4, 872
restriction endonuclease DNA profiling
differentiation from *C. coli*, 1136
Campylobacter spp.
API Campy
evaluation and comparison with conventional methods for identification of thermophilic isolates, 3345
hippurate hydrolysis
evaluation of disk method, 1341
Candida albicans
adhesion
reduced inhibition by saliva from patients receiving oral cancer therapy, 432
Ca3 fingerprinting
evidence for nosocomial transmission, 1223
candidiasis
molecular typing and karotype epidemiology, 1238
DNA fingerprinting
characterization of unusual vaginal isolates from Africa, 2462
genetic homogeneity of nine populations assessed by fingerprinting and C1 sequencing, 1501
DNA typing
investigation of transmission in surgical intensive care unit cluster by genomic methods, 576
human immunodeficiency virus
characterization of genetically distinct subgroup of strains isolated from oral cavities of infected patients, 696
cluster of oral atypical isolates in a group of positive drug users, 1129
karotype
stability in serial isolates from neutropenic patients, 794
multilocus enzyme electrophoresis analysis
antifungal susceptibilities of fluconazole- and itraconazole-resistant strains, 2732
PCR
detection in blood of neutropenic mice with systemic candidiasis, 625
physiological traits
association with success of strains as commensal colonizers and pathogens, 2920
random amplified polymorphic DNA
typing method in epidemiological surveillance of a burn unit, 2366
secretory proteinase
increased expression in isolates from human immunodeficiency virus-positive patients, 2543
susceptibility testing
comparison of methods for testing fluconazole-resistant and -susceptible strains, 3154
microtiter method, 661
Candida lusitaniae
DNA-based detection methods
comparison of EKP-1, EKP-2, MDP, and RAPD, 1467
Candida parapsilosis
genotyping
three distinct genotypes from clinical sources, 1815
Hanks' balanced salt solution
pseudoepidemic due to contamination, 2224
Candida spp.
AIDS patients
molecular epidemiology of isolates showing different fluconazole resistance profiles, 769
culture
relevance of culturing from intravascular catheters, 1635
enzyme immunoassays
microtitration plate for detection of PCR-amplified DNA, 962
PCR-restriction fragment polymorphism analysis
intergenic spacer regions of ribosomal DNA, 2476
Capnocytophaga spp.
peritonitis
patient undergoing continuous ambulatory peritoneal dialysis, 2471
Capture immunoglobulin hemadherence assays
development
use of human type O erythrocytes and recombinant parvovirus B19 antigen for evaluation, 2466
CDC strains
group IIg
phenotypic characteristics, fatty acid composition, and isoprenoid quinone content, 762
Cefixime
S. pneumoniae
methods for predicting susceptibility, 1031
Ceftiofur
susceptibility testing
MICs against bacterial pathogens of swine from the United States, Canada, and Denmark, 2435
Cellulomonas hominis sp. nov.
group A-3 strains
proposal after identification of CDC coryneform group strains, 2091
Chagas' disease
T. cruzi
high specificity of epimastigote ribonucleoprotein as antigen in serodiagnosis, 1456
Chemiluminescent DNA hybridization
staphylococcal *mecA* gene
detection, 2179
Chlamydia pneumoniae
cell culture recovery
effect of transport and storage conditions, 1793
human vascular cell walls
susceptibility to infection, 2411
Chlamydia trachomatis
direct fluorescent-antibody staining
confirmation of antigens in swabs and urine, 2847
elementary bodies
sensitivities of PCR, MicroTrak, ChlamydiaEIA, IDEIA, and PACE 2, 3186
leukocyte esterase test
screening of urine samples for infections among asymptomatic men, 2483
ligase chain reaction
detection in urine samples, 2042
detection in urine specimens, 898
screening of urine samples for infec-

tions among asymptomatic men, 2483
multiplex PCR
detection in genitourinary specimens, 3049
PACE 2C
evaluation for simultaneous detection of organism and *N. gonorrhoeae*, 2587
PCR
confirmation of antigens in swabs and urine, 2847
improved detection by an altered method of specimen transport and high-quality endocervical specimens, 2765
influence of volume of sample processed on detection with urogenital samples, 251
prevalence and serovar distribution of asymptomatic cervical infections, 3194
Q Beta replicase-amplified assay
comparison of characteristics with those of competitive PCR assay, 58
rapid antigen detection assays
identification of infection, 1920
Chronic fatigue syndrome
human herpesviruses 6 and 7
analysis of lymphocytes of patients for detection of virus, 1660
Citrobacter rodentium sp. nov.
characterization
genetic and biochemical, 2064
Citrobacter spp.
commercial identification systems
ability to identify newly recognized species, 242
Clostridium difficile
arbitrarily primed PCR
comparison with immunoblot analyses for typing isolates, 3169
cytotoxin titers
concurrence of toxin A enzyme-linked immunosorbent assay, fecal lactoferrin assay, and clinical criteria with titer in two patient cohorts, 1755
PCR
amplification of rRNA intergenic spacer regions as epidemiologic typing method, 184
PCR ribotyping and arbitrarily primed PCR
typing strains from a Polish maternity hospital, 2016
Clostridium perfringens
identification and antimicrobial resistance patterns
comparison with those of three other *Clostridium* spp., 3209
Coagulase-negative staphylococci
bacteremia
strain relatedness and determinants of same-strain infection studied with multiple blood cultures, 816
fluorescence testing
rapid detection of methicillin resistance, 2183
methicillin resistant
randomly amplified polymorphic DNA analysis for rapid differentiation of isolates, 1657
Staph ID 32 API system
evaluation for identification, 1150
Staph-Zym system
evaluation for identification, 1150
UZA method
rapid and economical method for species identification, 1060
Coccidioides immitis
enzyme immunoassays
comparative evaluation of commercial Premier EIA and microimmunodiffusion and complement fixation tests for antibodies, 618
comparison with traditional serological tests, 940
Complement fixation testing
American trypanosomiasis (Chagas' disease)
diagnosis by new test, 1034
Congenital rubella
PCR
use for prenatal and postnatal diagnosis, 2881
Contour-clamped homogeneous electric field electrophoresis
E. faecium
comparison with field inversion gel electrophoresis as typing method, 1554
Enterococcus spp.
identification to the species level, 141
Coronaviruses
wild ruminants
isolates antigenically indistinguishable from bovine coronavirus, 3264
Corynebacterium afermentans subsp. *lipophilum*
endocarditis
cause of prosthetic valve endocarditis, 759
Corynebacterium diphtheriae
PCR
detection of toxigenic strains isolated during the Russian diphtheria epidemic, 1990 through 1994, 3061
pulsed-field gel electrophoresis
molecular epidemiology of strains from northwestern Russia and surrounding countries, 1080
ribotyping
molecular epidemiology of strains from northwestern Russia and surrounding countries, 1080
Corynebacterium seminale sp. nov.
genital infections
new species associated with infections in males, 2244
Corynebacterium striatum
phenotypic characterization
31 strains isolated from clinical samples, 2458
Cowdria ruminantium
PCR
development and evaluation of assay for detection of low-level infection in *Amblyomma* ticks not detected by DNA probe, 166
serological assays
use of specific immunogenic region on MAP1 protein, 2405
Zimbabwean wild ungulates
detection in blood and bone marrow samples, 2501
Coxiella burnetii
Q fever
blood cultures from patients with acute and chronic disease, 3129
Q fever endocarditis
isolation from heart valves of patients, 428
Coxsackieviruses
immunoglobulin M capture immunoassays
investigation of B5 and B6 outbreaks in South Australia, 1628
Cryptococcus neoformans
DNA fingerprinting
diversity of fingerprints, 1807
involvement of multiple strains in one episode of cryptococcosis and reinfection with novel strains in recurrent infection, 99
multilocus enzyme electrophoresis
comparison with random amplified polymorphic DNA analysis for molecular subtyping, 1890
oxygen
limiting nutrient for growth, 995
random amplified polymorphic DNA analysis
clinical and environmental isolates from Nagasaki, 3328
comparison with multilocus enzyme electrophoresis for molecular subtyping, 1890
repetitive DNA probes
genetic relatedness of clinical isolates grouped with CNRE-1, 2818
sandwich enzyme-linked immunosorbent assay
sensitivity for polysaccharide antigen is dependent on isotypes of capture and detection antibodies, 765
Cryptosporidium parvum
concentration techniques
effect on viability of oocysts recovered from bovine feces, 2592
HCT-8 cells
effects of select medium supplements on in vitro development, 371
oocysts
murine infection model for maintenance and amplification, 1922
Cryptosporidium spp.
direct immunofluorescence
comparison with conventional staining methods for detection in human fecal specimens, 1632
identification methods
comparison of enzyme immunoassays, direct immunofluorescent assay, and acid-fast staining, 416
Culture
Candida spp.
relevance of culturing from intravascular catheters, 1635
cystic fibrosis
comparison of three methods for culturing throat swabs from patients, 1896
Legionella spp.
comparison of methods and recommendation for standardization, 2118
streptococcal pharyngitis
comparison with two rapid streptococcal antigen detection assays for diagnosis, 1408

urine
evaluation of incubation times, 1954
Culture methods
AnaeroGen system
evaluation for growth of anaerobic bacteria, 2388
Cyclospora spp.
immunocompetent hosts
occurrence as a gastrointestinal pathogen, 1267
prevalence
Nepalese children under 5 years of age, 3058
Cystic fibrosis
B. cepacia
investigation into whether natural environments present a potential hazard, 1001
Cytomegalovirus
antigenemia
effect of delayed specimen processing on test results, 257
antigenemia assay
comparison of several fixation methods, 1646
cell culture-PCR
detection in peripheral blood, 1411
CMV-vue antigenemia assay
rapid detection in mixed-leukocyte blood fractions, 1014
DNA amplification
early detection of viremia in bone marrow transplant recipients, 1263
human
pUL57 a major target antigen for immunoglobulin M antibody response during acute infection, 1927
rapid screening for resistance to ganciclovir and foscarnet of primary isolates from culture-positive blood samples, 738
human DNA
monitoring levels in blood after liver transplantation, 389
intestinal cytomegalovirus disease
searching for DNA in stool samples to rule out disease, 3064
nested PCR
monitoring of leukocyte DNA in bone marrow transplant patients, 2530
PCR
comparison of SHARP Signal System and Southern blot hybridization analysis for detection, 3028
detection in serum as diagnostic test for congenital cytomegalovirus infection, 3317
viremia
detection in transplantation recipients by shell vial assay, 2984
early detection in bone marrow transplant recipients by DNA amplification, 1263

Dematiaceous fungal pathogens
phylogeny
analysis of small-subunit ribosomal DNA sequences, 1322
Differential media
CHROMagar Candida medium
isolation of yeasts from dental samples, 3025
Direct agglutination testing
Leish-KIT
serodiagnosis of visceral leishmaniasis, 1742
leishmaniasis
evaluation of cleaving agents other than trypsin in test for diagnosis, 1984
Disk assays
β-lactamases
multicenter laboratory evaluation of assay employing the chromogenic cephalosporin S1, 1665
DNA fingerprinting
S. pneumoniae
five different techniques for molecular typing of strains, 1606
DNA probes
A. butzleri
16S rRNA based, 1691
Arcobacter spp.
16S rRNA based, 1691

Ehrlichia chaffeensis
monocytic ehrlichiosis
isolation and characterization of new strain from patient, 1704
Ehrlichia equi
human granulocytic ehrlichiosis
homology in 16S rDNAs, 1098
human granulocytotropic erlichia
protection conferred by HGE agent, 3333
Ehrlichia phagocytophila
human granulocytic ehrlichiosis
homology in 16S rDNAs, 1098
Ehrlichia risticii
90-12 strain
pathogenic, immunologic, and molecular differentiation from 25-D strain, 2987
Encephalitozoon (*Septata*) *intestinalis*
albendazole
autopsy-confirmed parasitological cure of disseminated infection in patient with AIDS, 2948
Entamoeba spp.
stool antigen detection kits
rapid diagnosis of infection, 2558
Enterobacteriaceae
media
evaluation of new medium with chromogenic substrates for use with urine samples, 199
Enterococcus faecalis
ATCC 51299
molecular characterization and multilaboratory evaluation, 3019
multilocus enzyme electrophoresis
analysis of isolates from intercontinental sources, 2903
pulsed-field gel electrophoresis
analysis of isolates from intercontinental sources, 2903
Enterococcus faecium
contour-clamped homogeneous electric field electrophoresis
comparison with field inversion gel electrophoresis as typing method, 1554
DNA relatedness
correlation between phenotypic characteristics and relatedness within strains, 1520
field inversion gel electrophoresis
comparison with contour-clamped homogeneous electric field electrophoresis as typing method, 1554
vancomycin dependent
isolate from stool following oral vancomycin therapy, 2770
Enterococcus spp.
aminoglycoside resistance
multilaboratory evaluation of screening methods for detection of high-level resistance, 3008
aminoglycoside resistant
investigation of reformulated Remel Synergy Quad plate for detection, 1643
beta-hemolytic
cost-effective method for rapid identification, 1154
contour-clamped homogeneous electric field electrophoresis
identification to the species level, 141
disk tests
evaluation of three for identification, 885
DNA hybridization
identification to the species level, 141
epidemiological typing
comparison of biochemical fingerprinting, ribotyping, and pulsed-field gel electrophoresis of DNA, 2812
latex agglutination tests
modified nitrous acid extraction kit for grouping, 1016
PCR
detection of glycopeptide resistance genotypes and identification to the species level, 24
susceptibility testing
commercial and reference methods for detection of vancomycin resistance, 1524
vancomycin resistant
ability of commercial and reference antimicrobial susceptibility testing methods, 1524
colonization of intestinal tracts of hospitalized patients, 2842
comparison of pigment production and motility tests with PCR for reliable identification, 1931
detection by Alamar MIC system, 791
investigation of reformulated Remel Synergy Quad plate for detection, 1643
Enteroviruses
group-specific anti-VP1 monoclonal antibody
comparison of 5-D8/1 with neutralization and PCR for rapid identification in cell culture, 2454
liquid-phase hybridization
detection, 648
PCR
detection, 648
reverse transcription multiplex PCR
differentiation from enteroviruses, 1442
Enzyme immunoassays
C. immitis
comparative evaluation of commercial Premier EIA and microimmunodiffusion and complement fixation tests for antibodies, 618

comparison with traditional serological tests, 940
CAPTIA Syphilis G
comparison with rapid plasma reagin test for detection of syphilis, 1829
Chlamydiazyme
PCR and direct fluorescent-antibody staining for confirming *C. trachomatis* antigens, 2847
Cobas Core Rubella IgG EIA recomb
evaluation, 2392
Cryptosporidium oocysts
evaluation of new rapid commercial assay for detection in untreated stool specimens, 1963
hepatitis B virus
evaluation of assay for DNA based on anti-double-stranded DNA, 413
immunoglobulin G
evaluation for serodiagnosis of yaws, 1875
Syva MicroTrak Chlamydia
PCR and direct immunofluorescence microscopy for confirmation of results, 2620
T. pallidum
recombinant antigen-based assay for screening of antibodies in blood bank routine, 525
two-site immune complex transfer
measurement of human immunodeficiency virus type 1 p24 in serum, 298
Enzyme-linked immunoassays
cysticercosis
evaluation for serological diagnosis, 3124
Legionella spp.
detection of PCR-amplified DNA in bronchoalveolar fluid, 1247
Sanofi Diagnostics Pasteur Chlamydia Microplate EIA
evaluation and comparison with other tests, 2839
Enzyme-linked immunosorbent assays
A. ovis
detection of infection in goats by major surface protein 5 competitive inhibition assay, 675
aspergillosis
comparison with Pastorex latex agglutination test for diagnosis with immunocompromised patients, 1912
B. burgdorferi
sensitivities and specificities of three assays compared, 2260
B. burgdorferi sensu stricto
establishment using purified recombinant 83-kDa antigen for serodiagnosis of Lyme disease, 2596
baculovirus-expressed hepatitis E virus protein
purification and utility, 3308
Borna disease virus
detection of antibodies, 348
inhibition tests
neutralization of antibodies to polioviruses, 2927
sandwich
bronchoalveolar lavage fluid used for diagnosis for invasive pulmonary aspergillosis, 3150
Epstein-Barr virus
AIDS-related central nervous system lymphoma
detection of DNA in cerebrospinal fluid for diagnosis, 1580
associated diseases
detection and quantification of virus DNA in plasma of patients, 1765
Equine arteritis virus
asinine strain
sexual and in-contact transmission among donkeys, 3296
Errata
E. coli
simultaneous identification of serotype O157:H7 and their shiga-like toxin type, 1048
hepatitis C virus
core serotypes in infection, 511
letters to the editor
screening quality of respiratory samples and *L. pneumoniae*, 3082
M. tuberculosis
homology of IS*6110* and DNAs of other *Mycobacterium* species, 3082
Mycobacterium spp.
PCR amplification and restriction endonuclease analysis of heat shock protein gene sequence, 1686
P. aeruginosa
genetic diversity of strains, 2803
PCR
detection of glycopeptide resistance genotypes and identification to the species level of clinically relevant enterococci, 1433
S. typhi
nested PCR based on ViaB sequence, 3082
Escherichia coli
cell detaching
fecal isolates, 2707
diarrhea
controlled study of infections in Bangladeshi children, 973
diffusely adhering strains
retrospective case-control study and clinical features in children with diarrhea, 1961
enteroaggregative
development of PCR for screening, 701
enterohemorrhagic
sorbitol-negative phenotype among strains of different serotypes and from different sources, 2199
enteropathogenic
identification by PCR-based detection of bundle-forming pilus gene, 1375
enterotoxigenic
colorimetric detection of heat-labile toxin-encoding gene by PCR, 1957
detection of DNA by multiplex PCR assay and simple preparation method for stool specimens, 1054
HEp-2 cell adherence assay
evaluation of simplified assay for isolates from South Indian children with acute diarrhea and controls, 2204
HEp-2 cells
adherence, 1414
late-onset neonatal meningitis
use of molecular analysis in pathophysiological investigation, 3074
O157
long-term shedding and clonal turnover of enterohemorrhagic strains in diarrheal diseases, 1602
O157:H7
arbitrarily primed PCR DNA fingerprinting by using templates from boiled cultures, 1534
detection by multiplex PCR, 2188
evaluation of immunoassay for direct detection in stool specimens, 222
isolation of β-D-glucuronidase-producing strain in the United States, 3347
molecular epidemiology by restriction fragment length polymorphism using Shiga-like toxin genes, 2150
molecular epidemiology of fast-food restaurant-associated outbreak in Washington state, 2155
nationwide survey of clinical laboratories for screening, 3275
restriction pattern recognition by artificial neural network, 2894
sensitivity of culture for detection in bovine feces, 2616
simultaneous identification of strains of this serotype and their Shiga-like toxin type by mismatch amplification mutation assay-multiplex PCR, 248
PCR
colorimetric detection of heat-labile toxin-encoding gene of enterotoxigenic strains, 1957
differentiation of pathogenic strains in Brazilian children, 1371
direct detection of verotoxin-producing strains in stool samples, 519
shiga-like toxin producing
clonal relatedness of O101 strains of human and porcine origin, 3174
virulence markers of strains originating from healthy domestic animals, 631
Uricult-Trio
evaluation of new agar for rapid detection, 1395
verotoxin producing
impact of free verotoxin testing on epidemiology of diarrhea, 1114

Feline coronavirus
reverse transcriptase PCR
detection of RNA in feces, tissues, and body fluids of naturally infected cats, 684
Feline herpesvirus type 1
restriction endonuclease analysis
identification of heterogeneous regions, 217
Flavimonas oryzihabitans
bacteremia
recurrent case associated with implanted central venous catheter, 3047
Fluoroquinolones
PD131628
interpretive criteria for and quality control parameters of methods of testing susceptibility, 235

Foot-and-mouth disease virus
detection
assessment of antibody response in oropharyngeal fluids, 79
restriction enzyme-nucleotide sequence analysis
rapid detection and characterization, 440
Fungi
molecular probes
diagnosis of infections, 2913

Giardia lamblia
diagnostic testing
comparison of conventional stool concentration methods, preserved-smear methods, an immunofluorescence assay, and an immunoassay for detection, 1942
Giardia spp.
direct immunofluorescence
comparison with conventional staining methods for detection in human fecal specimens, 1632
Gram-negative organisms
identification
comparison of Crystal Enteric/Nonfermenter, API 20E, and Vitek Automicrobic systems, 364
Crystal Enteric/Non-Fermenter, 845
MicroScan WalkAway system
comparison with Vitek system for identification, 3044
Gram-positive cocci
fusidic acid
antimicrobial activity, 1712
susceptibility testing
criteria for disk diffusion, 1712
Gram-positive organisms
H. kunzii
isolation from clinical specimens, 1638
Group A streptococci
Abbott Testpack Strep A Plus
evaluation for rapid detection, 260
agar
relative value when incubated under different atmospheres, 2480
pharyngitis
comparison of BioStar Strep A OIA, Abbott TestPack Plus Strep A, and culture with selective media for diagnosis, 1551
serum opacity factor
comparison of methods for obtaining, 2963
Group B streptococci
rapid diagnostic tests
sensitivity and specificity for detection of antigen in bacteremic neonates, 193
Group C streptococci
large-colony-forming Lancefield
cases of and taxonomic considerations for, 2114
Guest commentaries
pulsed-field gel electrophoresis
interpretation of chromosomal DNA restriction patterns, 2233

Haemophilus ducreyi
isolation rates
enhanced recovery from clinical specimens by incubation at 35°C, 3257
PCR
detection and diagnosis of chanchroid, 787
Haemophilus influenzae
epidemiology
turnover of nonencapsulated strains in nasopharynges of otitis-prone children, 2027
long PCR-ribotyping
use with nontypeable strains, 1192
PCR
high incidence in nasopharyngeal secretions and middle ear effusions, 1835
sampling techniques
evaluation for detection of upper respiratory tract carriage among healthy infants, 3077
Haemophilus parainfluenzae
biliary tract infections
rationale for ascending route of infection from gastrointestinal tract, 3042
Haemophilus spp.
ampicillin
disk diffusion testing with Haemophilus Test Media, 2240
Hafnia alvei
characterization
biochemical tests, random amplified polymorphic DNA PCR, and partial sequencing of 16S rRNA gene, 2372
Helcococcus kunzii
isolation
clinical specimens, 1638
Helicobacter cinaedi
genotypic and phenotypic characterization
strains isolated from humans and animals, 2940
Helicobacter fennelliae
genotypic and phenotypic characterization
strains isolated from humans and animals, 2940
Helicobacter hepaticus
culture and PCR assay
identification of widespread infection in feces in commercial mouse colonies, 2968
diagnostic assays
16S rRNA gene nucleotide sequence, 1344
Helicobacter pylori
cagA$^+$
serologic detection of strains, 1496
chromosomal DNA profiles
characterization of strains isolated from sequential gastric biopsy specimens, 2496
cytotoxin production
patients with upper gastrointestinal diseases, 1203
DNA fingerprinting
long-term colonization with single and multiple strains, 918
feline strains
characterization and associated gastritis in a colony of domestic cats, 2280
gastric infections
seroepizootiology with rhesus monkeys housed in social environments, 1492
human gastric mucosa
detection of gene expression, 28
immunological dot blot methods
identification, 381
immunomagnetic separation and PCR
detection in water and stool specimens, 2162
liquid media
factors affecting growth and susceptibility testing, 1028
PCR
comparison with other invasive techniques and detection of *cagA* in biopsy specimens, 2752
importance of detection of *cagA* in strains from children in diagnosis of gastritis, 3300
transport media
recovery not dependent upon medium used, 2798
Helicobacter spp.
H. bilis sp. nov.
isolation from bile, livers, and intestines of aged, inbred mice, 445
Hepatitis B virus
DNA detection methods
reliability, 225
SHARP Signal System
evaluation for enzymatic detection of amplified virus DNA, 477
Hepatitis C virus
Amplicor HCV test
preclinical evaluation for detection of RNA, 1775
antibody tests
study of reliability, 620
genotypes
greater diversity found in Hong Kong than in mainland China, 2931
genotyping
samples from South Africa, 1679
line probe assay
subtyping, 254
novel serotyping system
evaluation, 2978
recombinant immunoblot assays
influence of genotypes on patterns, 1357
reverse transcription PCR
detection of RNA and comparison with nested amplification and antibody testing, 654
RNA
levels in serum and relationship to levels of immunoglobulin antibodies against viral core protein, 778
quantification by competitive amplification, 265
serological reactivity
viral genotypes in infection, 209
solid-phase sequencing
dynamic analysis of heterogeneous populations, 1870
tear fluid
tear fluid from carriers could be infectious, 2202
Hepatitis C viruses
subtype 2c
partial nucleotide sequencing of six detected in Italy, 2781
Hepatitis E virus
Indian strain
cloning, sequence, and expression, 2653

Herpes simplex virus
Herpchek
comparison with culture for detection of virus from clinical specimens, 1378
Herpesvirus
bovine 1
detection of excretion in semen by PCR, 308
High-resolution proton magnetic resonance spectroscopy
common human pathogens
rapid identification, 1258
Human cytomegalovirus
DNA amplification assays
quantity of DNA present in leukocytes, 2607
enzyme immunoassays
recombinant mono- and polyantigens to detect immunoglobulin M in human sera, 2535
nonradioactive PCR–enzyme-linked immunosorbent assays
detection of DNA, 725
Human herpesvirus 6
chronic fatigue syndrome
analysis of lymphocytes of patients for detection of virus, 1660
pregnant women
presence in cervixes, 1968
Human herpesvirus 7
chronic fatigue syndrome
analysis of lymphocytes of patients for detection of virus, 1660
pregnant women
presence in cervixes, 1968
Human herpesviruses
types 6 and 7
qualitative PCR, 2124
Human immunodeficiency virus
antibody assays
performance of rapid, on-site assay in a public health setting, 2899
culture
detection of bacterial enteropathogens in patients, 745
cultures
length of incubation time, 246
leishmaniasis
parasitic culture of buffy coat for diagnosis in infected patients, 937
PCR
detection of proviral gag segment, 641
prior enrichment of DNA with probe DNA particles for efficient diagnosis, 2489
quantitative RNA
comparative stabilities in plasma from samples collected in VACUTAINER tubes, 1562
Human immunodeficiency virus type 1
amine oxidase-peroxidase systems
inactivation, 2054
antiretroviral compounds
quantitative molecular monitoring during therapy, 16
automated microparticle enzyme immunoassays
detection of antibodies, 2338
free and complexed antigen
stability at different temperatures, 1348
gp120
enzyme immunoassay for titration of antibodies to the CD4-binding site, 3319
human cord blood mononuclear cells
preferential infection by non-syncytium-inducing, macrophage-tropic isolates, 292
isolation methods
isolation of RNA from feces, 581
nonisotopic hybridization assays
determination of relative amounts of genotypic zidovudine resistance, 2777
p24 antigen
detection with and without immune complex dissociation for longitudinal monitoring, 72
PCR
detection of proviral DNA by using an electrochemiluminescent probe, 2036
determination of syncytium-inducing V3 genotype, 906
low DNA burden as cause of failure to detect DNA in clinical specimens, 205
quantitation of DNA and RNA by novel internally controlled assay, 1670
use as a confirmatory test for infection in individuals with indeterminate Western blot profiles, 3034
PCR–enzyme-linked oligosorbent assay
quantitation of DNA, 3201
pol mutations
assay for mutations associated with resistance to zidovudine and didanosine, 342
serological absorption tests
differentiation of infections, 1727
subgroup B isolates
similarity among those from infected individuals from Argentina and the United States, 481
syncytium and non-syncytium inducing
quantitative analysis with patients, 212
zidovudine
reverse transcriptase sequence of paired isolates of cerebrospinal fluid and blood from patients during treatment, 352
Human papillomavirus
DNA
intermethod variation in detection in cervical smears, 2631
enzyme-linked immunosorbent assay
detection of antibodies against type 16 virions, 1380
genomes
genomic diversity of type 6 and type 11 isolates from throughout the world, 1746
hybrid capture assays
accuracy and interlaboratory reliability of DNA testing, 545
ovarian pathologies
absence of sequences, 1011
PCR
group-specific differentiation between high- and low-risk genotypes by general primer-mediated assays and oligonucleotide probes, 901
nested approach for detection and typing of epidermodysplasia verruciformis-associated types in cutaneous cancers, 690
single-tube nested PCR
detection, 1822
type 16
genotyping isolates from persistently infected promiscuous individuals and cervical neoplasia patients, 2957
type distribution and serological response
type 6 virus-like particles from patients with genital warts, 2058
type-specific oligonucleotide hybridization
detection, 1822
Human papillomavirus type 16
E6-E7 open reading frame
expression varies quantitatively in biopsy tissue from different grades of cervical intraepithelial neoplasia, 1169
Human papillomaviruses
nonisotopic consensus PCR assay
detection of DNA in cervical lavage specimens, 1973
Human parvovirus
B19
evaluation of commercial tests for detection of immunoglobulin M antibodies, 1363
DNA hybridization assay
routine diagnosis of B19 infection, 2473
Human syngamosis
M. laryngeus
case report and description of parasite, 998
Human T-cell lymphotropic virus type 1
geographical clustering
infection in Honduras, 2999
prevalence of infection
Spanish drug users, 1735
transmission pathways
evaluation of saliva as source of alternative transmission, 1510
Human T-cell lymphotropic virus type 2
prevalence of infection
Spanish drug users, 1735
single-strand conformation polymorphism analysis
molec::lar subtyping, 3260
Human T-cell lymphotropic virus types 1 and 2
Western blotting (immunoblotting)
enhanced specificity of truncated transmembrane protein for serologic confirmation of infections, 3239

Ileal symbiont intracellularis
proliferative enteropathy
susceptibility of isolates from pigs, 1314
Immunoblotting
congenital toxoplasmosis
diagnosis and relationship with other methods, 1479
Immunocapture tests
immunoglobulin A and E antibodies
prognostic and diagnostic value for toxoplasmosis in immunodepressed subjects, 878
Influenza A virus
rapid immunofluorescence procedures
comparison with TestPack RSV and Directigen FLU-A for diagnosis, 1650

reverse transcriptase PCR
virulence potential of viruses in birds, 748
Influenza virus
human lung embryonated fibroblast cells
isolation from clinical samples, 1948
PCR
typing and subtyping with clinical samples, 1180
rapid culture assay
type- and subtype-specific detection in clinical specimens, 318
Invasive meningococcal disease
serogroup C
meningococcal carriage, alcohol consumption, and campus bar patronage in outbreak, 3133
Isoenzyme analysis
A. fumigatus
comparison of typing methods, 1596
Ixodid ticks
hemocytic rickettsia-like organisms
determination of prevalence of infection, 2710

JC polyomavirus
human
parent-to-child transmission relatively common in spread, 1448
JC virus
progressive multifocal leukoencephalopathy
diagnostic value of detecting DNA in cerebrospinal fluid of patients, 484

Kingella kingae
vancomycin-containing media
evaluation for isolation from upper respiratory tract specimens, 1426
Klebsiella pneumoniae
random amplified polymorphic DNA analysis
use, along with plasmid analysis, in investigation of outbreak of multiresistant strains, 713

Lacto-phenol cotton blue staining
feces
evaluation for wet mount preparations, 1019
Latex agglutination testing
aspergillosis
comparison with enzyme-linked immunosorbent assays for diagnosis with immunocompromised patients, 1912
cryptococcal antigen
false-positive reactions caused by disinfectants and soaps, 1674
interference by hydroxyethyl starch used for vascular filling, 1917
rapid bacterial antigen detection
lack of detectable clinical benefits, 1486
Latex agglutination tests
beta-hemolytic streptococci
modified nitrous acid extraction kit for grouping, 1016
Enterococcus spp.
modified nitrous acid extraction kit for grouping, 1016
Legionella pneumophila
amplified fragment length polymorphism
use in molecular typing and application to epidemiological studies, 1716
arbitrarily primed PCR
comparison of isolates from epidemics, 2872
pulsed-field gel electrophoresis
comparison of isolates from epidemics, 2872
Legionella spp.
culture
comparison of methods and recommendation for standardization, 2118
enzyme-linked immunoassays
detection of PCR-amplified DNA in bronchoalveolar fluid, 1247
Legionellaceae
restriction fragment length polymorphism
molecular typing using rRNA genes, 402
Legionellae
PCR
amplification of intergenic 16S-23S rDNA regions, 2377
Leishmania spp.
in vitro culture
detection in diagnostic samples from humans and dogs, 1145
PCR
detection in diagnostic samples from humans and dogs, 1145
Leishmaniasis
visceral
evaluation of cleaving agents other than trypsin in direct agglutination test for diagnosis, 1984
Leptospira interrogans
IS*1533*-based PCR assay
identification of sensu lato serovars, 3284
Letters to the editor
A. denitrificans subsp. *xylosoxidans*
investigation of hospital-acquired infections, 3081
A. fumigatus
comparison of three typing methods, 3362
Albicans ID plates
evaluation, 2227
Bartonella spp.
inter- and intraspecies identification, 3370
C. neoformans
random amplification of polymorphic DNA and DNA fingerprinting, 1682
Candida spp.
erroneous statistical evaluation of a new diagnostic test, 262
relevance of culturing from intravascular catheters, 3080
Cryptosporidium antigen detection
reverse passive hemagglutination assay, 1684
enteroaggregative *E. coli*
HeLa cell-detaching activity and alpha-hemolysin production, 3364
Enterococcus spp.
rapid detection of vancomycin-resistant strains, 263
group A streptococci
evaluation of rapid antigen assays and culture for detection, 3365
hepatitis C virus
detection of RNA, 2522
human papillomavirus
comparison of identification methods, 2229
L. pneumoniae
screening quality of respiratory samples, 1971
Lactobacillus GG
vaginal suppositories and vaginitis, 1432
M. avium complex
recovery from blood specimens by using Isolator-BACTEC system, 784
M. tuberculosis
differentiation of isolates, 3359
discrimination of strains by PCR, 2801
multiplex PCR
use in identifying *M. avium* and *M. intracellulare*, 2230
P. carinii
PCR for detection in blood cells, 1431
Pneumococcus spp.
more about cefuroxime screening test, 1044
rotavirus
survey of G and P types associated with gastroenteritis in Brazil, 1986 to 1992, 2231
S. typhi
detection by nested PCR, 3361
Salmonella spp.
detection in fecal samples by immunomagnetic separation and PCR, 1046
susceptibility testing
clinical impact of in vitro testing and bacterial identification, 508
V. cholerae O1 and/or O139
rapid monoclonal antibody-based coagglutination test, 509
V. cholerae O139
first epidemic, 1972
Leuconostoc spp.
disk tests
evaluation of three for identification, 885
Levofloxacin
susceptibility testing
results predicted from results for ciprofloxacin and ofloxacin, 215
suggested modifications for criteria, 146
Ligase chain reaction
C. trachomatis
detection in urine specimens, 898
N. gonorrhoeae
evaluation for use with urine samples for identification, 455
Listeria monocytogenes
virulence determinations
use of frozen stored murine hybridoma cells, 3349
Lyme borreliosis
tick-borne pathogens
coexistence of antibodies in human sera, 3054
Lyme disease
B. burgdorferi
simultaneous presence of different, distinct genospecies in biological fluids of patients, 602
immunoblot interpretation criteria
serodiagnosis, 419
spirochetes
effect of ambient temperature on com-

petence of deer ticks, 958
transhemispheric exchange by seabirds, 3270
Lysis
blood cultures
comparison of three methods for extraction of viral nucleic acids, 41

Malaria
microtiter plate hybridization
species-specific PCR detection of parasites, 2342
Malassezia spp.
lipid-supplemented Peds Plus blood culture bottles improved detection, 1005
Measles virus
antibody detection
comparison of commercial enzyme immunoassay kits with plaque reduction neutralization test, 811
RNA
detection in urine specimens from vaccine recipients, 2485
Media
Actinomyces spp.
selective medium for isolation from medical and dental specimens, 1613
CPS ID2
evaluation for detection of urinary tract bacterial isolates in specimens from rehabilitation center, 1025
Enterobacteriaceae
evaluation of new medium with chromogenic substrates for use with urine samples, 199
preservation
comparison for storage of stool samples, 2176
Meningoencephalomyelitis
feline nonsuppurative
description of "staggering disease" and studies of its etiology, 1668
Meta-analysis
gram-negative sepsis
reappraisal of bacteremia, endotoxemia, and mortality, 1278
Microascus cirrosus
pediatric bone marrow transplants
disseminated infection in recipient, 735
Microbacterium spp.
CDC coryneform groups A-4 and A-5
primary identification from clinical specimens, 188
Micrococcus spp.
STAPH-IDENT system
4-year prospective study for reference identification, 96
Microsporidia
E. bieneusi
detection by PCR with intestinal biopsy specimens, 2294
PCR
identification in stool specimens, 1739
staining methods
comparison for detection, 3138
Microsporidiosis
Uvitex 2B stain
diagnosis by examination of stool and duodenal aspirate, 805
Weber's modified trichrome stain
diagnosis by examination of stool and duodenal aspirate, 805
Multilocus enzyme electrophoresis
C. neoformans
comparison with random amplified polymorphic DNA analysis for molecular subtyping, 1890
Mycobacteria
acid-fast staining methods
phenolic acridine orange fluorescent stain, 2763
Mycobacterium asiaticum
olecranon bursitis
probable causative agent in one case, 1042
Mycobacterium avium
AIDS patients
variations in susceptibilities of different strains isolated from same patient, 1008
cigarettes
recovery from, 2757
IS*1245*
specific target for analysis of strain relatedness, 304
PCR
identification of IS*901*-IS*902* and p40, 1049
restriction fragment length polymorphism
use as genetic marker for typing, 1389
Mycobacterium avium complex
high-performance liquid chromatography
identification with fluorescence detection and computer-driven pattern recognition models, 1270
IS*901*-detecting primers
use for determining distribution of IS*901* in strains, 2102
multiplex PCR
detection and identification of *M. avium* and *M. intracellulare* in blood culture fluids of AIDS patients, 668
Mycobacterium avium-M. intracellulare complex
colorimetric methods
determination of MICs in liquid medium, 1842
Mycobacterium bovis
molecular epidemiological studies
infections of humans and animals in Sweden, 3183
tuberculosis
differentiation of strains in cattle and goats by molecular typing, 2953
Mycobacterium celatum
AIDS patients
isolation of newly described species, 137
Mycobacterium genavense
human immunodeficiency virus
species-specific DNA in intestinal tissues of uninfected individuals, 2514
Mycobacterium kansasii
PANTA
effect on growth in BACTEC 12B medium, 2012
Mycobacterium leprae
PCR
detection of infection, 45
Mycobacterium spp.
cervical lymphadenitis
diagnosis of fastidious organism by culture-free microbiological methods, 2670
DNA probes
use for identification on basis of cord formation in cultures, 1548
Lowenstein-Jensen slant
recovery, 3315
M. conspicuum sp. nov.
isolation from patient with disseminated infections, 2805
Mycobacteria Growth Indicator Tube
recovery, 3315
PCR
assay based on DNA coding for 16S RNA for detection in clinical samples, 3225
PCR–oligonucleotide-specific capture plate hybridization
detection and identification, 2994
recovery rates
comparison of BACTEC 12B vials, Middlebrook 7H11-selective 7H11 biplates, and Lowenstein-Jensen slants in public health laboratory, 2516
restriction endonuclease analysis
analysis and PCR amplification of 65-kilodalton heat shock protein gene sequences for taxonomic separation of rapidly growing strains, 149
testing
results from clinical laboratories that participate in E survey, 1993, 407
Mycobacterium tuberculosis
Amplicor
comparison for detection with in-house PCR and conventional culture, 3221
Amplicor PCR
evaluation for direct detection from sputum specimens, 2582
quantitative culture from sputum specimens and dilution endpoint of detection, 1944
BACTEC 12B bottles
algorithm for use of nucleic acid probes for identification, 1934
capture resin
inactivation of polymerase inhibitors for DNA amplification in sputum, 629
colorimetric methods
determination of MICs of antimicrobial agents, 2324
colorimetric microwell plate hybridization assays
detection of DNA from sputum samples, 752
DNA fingerprinting-phenotyping
isolates from human immunodeficiency-seropositive and -seronegative patients in Tanzania, 1064
double-repetitive-element PCR
subtyping of isolates, 1383
ethanol fixation
DNA-based detection with sputum specimens, 1558
genotypes
predominance of single genotype in countries of Southeast Asia, 3234
Gen-Probe Amplified Mycobacterium Tuberculosis Direct Test
direct detection, 1856
H37Ra
rapid susceptibility testing by flow cytometry, 1231
high-performance liquid chromatography
identification with fluorescence detec-

tion and computer-driven pattern recognition models, 1270
insertion sequences
determination of homology between IS*6110* and DNAs of other *Mycobacterium* spp., 2290
PCR
clinical evaluation of assay, 90
comparison with Qβ Replicase, 860
detection and identification directly from sputum specimens by Amplicor, 2686
simple and rapid detection of complex organisms in bovine tissue samples, 33
peripheral blood
amplification, 3312
pyrazinamide
comparison of Bactec method with pyrazinamide assay for susceptibility testing, 2468
Qβ Replicase
comparison with PCR for detection, 860
Q-Beta replicase-amplified assay
detection directly from spiked human serum, 322
detection from clinical specimens, 1435
random amplified polymorphic DNA analysis
efficient discrimination of strains by 16S-23S spacer region-based technique, 1418
restriction fragment length polymorphism typing
isolates from patients with pulmonary tuberculosis in India, 3037
rifampin resistant
genotypic detection of strains by comparison of single-strand conformation polymorphism and dideoxy fingerprinting, 1617
Roche Amplicor Mycobacterium Tuberculosis Test
direct detection, 1856
single-tube heminested PCR assays
direct genotypic detection of rifampin resistance in clinical specimens, 556
sodium dodecyl sulfate
inhibitory effect in detection by amplification of rRNA, 3338
Mycobacterium tuberculosis complex
DNA sequence polymorphisms
differentiation of strains, including rapid identification of *M. bovis* BCG, 840
Mycobacterium ulcerans
molecular typing
epidemiological relationship between strains in Australia and Africa, 2250
Mycoleptodiscus indicus
phaeohyphomycosis
new etiologic agent, 2796
Mycoplasma arthritidis
strain comparison
enzyme-linked immunosorbent assay, immunoblotting, and DNA restriction analysis, 2271
Mycoplasma hyopneumoniae
PCR
detection of DNA, 893
recombinant 46-kilodalton surface antigen
use for early diagnosis of mycoplasmal pneumoniae in swine, 680
Mycoplasma iowae
PCR
detection, 1335
Mycoplasma meleagridis
PCR
detection, 1335
Mycoplasma pneumoniae
complement fixation testing
comparison with two rapid commercial tests for serologic diagnosis, 1212
human urogenital tract
isolation, 2823
Mycoplasma pneumoniae-M. genitalium
synovial fluid isolate
detection of mixture, 1851

National Committee for Clinical Laboratory Standards
broth macrodilution
quality control guidelines for testing of amphotericin B, fluconazole, and flucytosine, 1104
disk test
evidence that test is less sensitive than screen plate for detection of low-expression-class methicillin-resistant *S. aureus*, 1909
Necrotizing fasciitis
features
clinical and microbiological, 2382
Neisseria elongata
subsp. *glycolytica*
characterization of isolates obtained from human wound specimens and blood cultures, 76
Neisseria gonorrhoeae
carbohydrate fermentation testing
comparison with GonoGen, GonoGen II, and MicroTrak direct fluorescent-antibody test for confirmation of culture isolates, 474
Gram stain
comparison with DNA probe for detection in urethras of symptomatic males, 3068
ligase chain reaction
detection in urogenital swabs, 3111
evaluation for use with urine samples for identification, 455
multiplex PCR
detection in genitourinary specimens, 3049
PACE 2C
evaluation for simultaneous detection of organism and *C. trachomatis*, 2587
plasmid content
differentiation of isolates, 1039
pulsed-field electrophoresis
differentiation of isolates, 1039
serotyping
differentiation of isolates, 1039
Neisseria meningitidis
meningococcal disease
infections in province of Quebec, Canada, from 1991 to 1992, 53
PCR amplicon restriction endonuclease analysis
study of chromosomal *dhps* gene, 1174
penicillin
decreased susceptibility in Saskatchewan, Canada, 1784
serogroup antigens
comparison of commercial diagnostic tests for identification, 3326
Neisseria meningitis
restriction fragment length polymorphisms
typing and application to assessment of epidemics throughout the last four decades in China, 458
Newcastle disease virus
reverse transcription PCR
characterization, 2624
Nocardia asteroides complex
DNA amplification and restriction endonuclease analysis
recognition of four new taxa, 3096
yeast killer system
use for identification, 8
Nocardia brasiliensis
taxonomy
new taxa associated with invasive disease, 1528
Nocardia spp.
Parkinson's disease
serological testing for role of organism, 2768
Norwalk virus
monoclonal antibodies
detection of antigen in stools, 2511
Norwalk-like viruses
solid-phase immune electron microscopy
classification into six antigenic groups from 10 gastroenteritis outbreaks in the United States, 501
Nutritionally variant streptococci
S. adjacens
analysis of enzymatic activities for differentiation of species, 1584
S. defectivus
analysis of enzymatic activities for differentiation of species, 1584

Oligotropic bacteria
isolation
clinical materials, 493
Orthopoxviruses
PCR
strategy for identifying smallpox and others, 2069

Paracoccidioides brasiliensis
random amplified polymorphic DNA analysis
characterization of isolates, 505
specific DNA fragments
cloning and nucleotide sequence, 1652
Parainfluenza viruses
parainfluenza 3 variant
isolation and characterization, 1839
Parvovirus
canine
detection by PCR of wild-type canine virus which contaminates dog vaccines, 110
Parvoviruses
H-1
detection by PCR, 1699
Kilham rat
detection by PCR, 1699
PCR
detection of newly recognized rodent viruses, 2859

rodent, 0
Pasteurella dagmatis
septicemia
diabetic patient, 202
Pasteurella multocida
septicemia
diabetic patient, 202
serotype D
identification and characterization of outer membrane proteins by using monoclonal antibodies, 952
PCR
arbitrarily primed
genomic fingerprinting of epidemic and endemic *S.* (*X.*) *maltophilia* strains, 1289
Aspergillus spp.
detection of DNA in bronchoalveolar lavage samples by competitive assay, 1164
birnaviruses
detection and identification of aquatic viruses, 835
C. albicans
detection in blood of neutropenic mice with systemic candidiasis, 625
C. ruminantium
development and evaluation of assay for detection of low-level infection in *Amblyomma* ticks not detected by DNA probe, 166
C. trachomatis
influence of volume of sample processed on detection with urogenital samples, 251
chancroid
alterations in sample preparation increase sensitivity, 1036
cytomegalovirus
detection in serum as diagnostic test for congenital cytomegalovirus infection, 3317
double repetitive element
subtyping *M. tuberculosis* isolates, 1383
E. coli
differentiation of pathogenic strains in Brazilian children, 1371
direct detection of verotoxin-producing strains in stool samples, 519
Enterococcus spp.
comparison with pigment production and motility tests for reliable identification of vancomycin-resistant strains, 1931
detection of glycopeptide resistance genotypes and identification to the species level, 24
enterotoxigenic *E. coli*
detection of DNA, 1054
H-1 parvovirus
detection, 1699
human immunodeficiency virus
prior enrichment of DNA with probe DNA particles for efficient diagnosis, 2489
human papillomavirus
nested approach for detection and typing of epidermodysplasia verruciformis-associated types in cutaneous cancers, 690
influenza virus
typing and subtyping with clinical samples, 1180
inhibition
aqueous and vitreous fluids, 2643
Kilham rat virus
detection, 1699
M. leprae
detection of infection, 45
M. tuberculosis
clinical evaluation of assay, 90
detection of complex organisms in bovine tissue samples, 33
microsporidia
identification in stool specimens, 1739
porcine reproductive virus
detection, 1730
R. equi
identification of virulent isolates, 1624
R. japonica
specific amplification of DNA from clinical specimens, 487
respiratory syndrome virus
detection, 1730
S. enteritidis
analysis of isolates, 987
S. (*X.*) *maltophilia*
genomic fingerprinting of epidemic and endemic strains, 1289
S. pneumoniae
detection in whole blood, 596
semiquantitative
onset and treatment of *P. carinii* infection in rat model, 718
single-strand conformational polymorphism
recognition of medically important opportunistic fungi, 3216
toxoplasmosis
quantitative competitive assay with bronchoalveolar lavage fluid for diagnosis with AIDS patients, 1662
PCR-restriction fragment polymorphism analysis
B. burgdorferi sensu lato
molecular typing, 589
PCR-restriction length fragment polymorphism
Bartonella-like isolates
differentiation at the species level in the citrate synthase gene, 1797
PCR–single-strand conformation polymorphism analysis
16S rRNA gene
molecular identification of bacteria, 2601
Pediococcus spp.
disk tests
evaluation of three for identification, 885
Penicillin
N. meningitidis
decreased susceptibility in Saskatchewan, Canada, 1784
Penicillium marneffei
fluorescent-antibody testing
development for tissue form, 2136
PCR
phylogeny and identification of the human pathogenic fungus, 85
Pharyngitis
group A streptococci
comparison of BioStar Strep A OIA, Abbott TestPack Plus Strep A, and culture with selective media for diagnosis, 1551
Plasmodium falciparum
PCR
typing of field isolates, 944
Pneumocystis carinii
PCR
comparison of six different methods for detection, 2785
comparison with standard cytological staining for detection from respiratory specimens, 3004
semiquantitative PCR
onset and treatment of infection in rat model, 718
type-specific oligonucleotide probes
typing of strains, 2973
Pneumocystis carinii pneumonia
steroid induced
roles of collagenases and elastase and cathepsin G, 829
Polioviruses
intratypic differentiation
comparison of five methods, 2562
reverse transcription multiplex PCR
differentiation from enteroviruses, 1442
RNA probes
identification of vaccine-related viruses by hybridization, 562
Porcine reproductive virus
PCR
detection, 1730
Porphyromonas gingivalis
immunomagnetic PCR and DNA probe
detection and identification, 2908
tubal-ovarian abscesses
isolation of strain, 1925
Pseudomonas aeruginosa
arbitrarily primed PCR
comparison with macrorestriction typing using strains from cystic fibrosis patients, 2216
auxotropic variants
selection from prototropic wild-type strains in respiratory infections in patients with cystic fibrosis, 37
cystic fibrosis
production of elastase, exotoxin A, and alkaline protease in sputa during pulmonary exacerbation in patients, 924
risk of cross-colonization and infection at a holiday camp for patients, 572
cystic fibrosis patients
evaluation of E-test for determination of MICs for isolates, 3191
DNA-based typing techniques
discriminatory power, 528
macrorestriction typing
comparison with arbitrarily primed PCR using strains from cystic fibrosis patients, 2216
restriction fragment length polymorphism
genetic diversity of strains isolated from patients with cystic fibrosis, 1461
Pseudomonas (Burkholderia) cepacia
biochemical and genomic typing
analysis of strains isolated in nosocomial outbreak, 2353
Pulmonary cryptococcosis
cryptococcal antigen
direct determination in transthoracic needle aspirate, 1588

Pulmonary tuberculosis
Roche AMPLICOR *M. tuberculosis* PCR test
rapid diagnosis, 1832
Pulsed-field gel electrophoresis
Acinetobacter spp.
comparison with ribotyping for molecular typing, 1402
Bartonella (*Rochalimaea*) spp.
inter- and intraspecies identification, 1573
C. diphtheriae
molecular epidemiology of strains from northwestern Russia and surrounding countries, 1080
C. fetus
analysis of strains, 1676
L. pneumophila
comparison of isolates from epidemics, along with that by arbitrarily primed PCR, 2872
N. gonorrhoeae
differentiation of isolates, 1039
S. aureus
comparison with MIDI Sherlock system for characterizing methicillin-resistant strains from recent hospital outbreak, 2723
replacement for bacteriophage typing, 551
S. enteritidis
molecular analysis, 1070
Puumala virus
PCR
detection and subsequent sequencing from human specimens, 277
Pyrazinamide
M. tuberculosis
comparison of Bactec method with pyrazinamide assay for susceptibility testing, 2468

Random amplified polymorphic DNA analysis
A. fumigatus
comparison of typing methods, 1596
B. pseudomallei
subdivision of ribotypes into multiple types for insight into epidemiology, 1687
C. neoformans
comparison with multilocus enzyme electrophoresis for molecular subtyping, 1890
coagulase-negative staphylococci
rapid differentiation of methicillin-resistant isolates, 1657
K. pneumoniae
use, along with plasmid analysis, in investigation of outbreak of multiresistant strains, 713
M. tuberculosis
efficient discrimination of strains by 16S-23S spacer region-based technique, 1418
S. pyogenes
characterization of strains in skin sores of Aboriginal Australians, 1471
Repetitive element PCR
Bartonella spp.
genomic fingerprinting for distinguishing species and isolates, 1089
Replica plating methods
antimicrobial resistance
screening of fecal samples, 3146
Respiratory syncytial virus
rapid immunofluorescence procedures
comparison with TestPack RSV and Directigen FLU-A for diagnosis, 1650
reverse transcription-PCR
detection; hybridization by DNA enzyme immunoassay, 3352
Respiratory syndrome virus
PCR
detection, 1730
Restriction endonuclease analysis
A. calcoaceticus-A. baumannii complex
identification of isolates, 1108
A. fumigatus
comparison of typing methods, 1596
Restriction fragment length polymorphisms
Legionellaceae
molecular typing using rRNA genes, 402
M. avium
use as genetic marker for typing, 1389
Reverse transcriptase PCR
Argentine hemorrhagic fever
rapid diagnosis, 1327
feline coronavirus
detection of RNA in feces, tissues, and body fluids of naturally infected cats, 684
Reverse transcription multiplex PCR
enteroviruses
differentiation from polioviruses, 1442
polioviruses
differentiation from enteroviruses, 1442
Reverse transcription-PCR
small round-structured viruses
differentiation, 64
Rhinoviruses
liquid-phase hybridization
detection, 648
PCR
detection, 648
Rhizopus microsporus var. *microsporus*
mucormycosis
cellulitis in leg of diabetic patient cured by amputation, 3341
Rhodococcus equi
PCR
identification of virulent isolates, 1624
Ribotyping
Acinetobacter spp.
comparison with pulsed-field gel electrophoresis for molecular typing, 1402
C. diphtheriae
molecular epidemiology of strains from northwestern Russia and surrounding countries, 1080
S. suis
detection of genomic heterogeneity in isolates, 968
Rickettsia akari
pulsed-field gel electrophoresis
genomic study, 3022
Rickettsia japonica
PCR
specific amplification of DNA from clinical specimens, 487
restriction fragment length polymorphism analysis
detection in *H. longicornis* ticks by using PCR product, 824
Rickettsia spp.
strain S
genomic and proteinic characterization, 2738
Rochalimaea henselae
liquid medium
support of primary isolation from blood and tissue specimens, 742
Rotavirus
bovine
characterization of strain neonatal calf diarrhea virus-Cody, 990
human
distribution of VP4 genotypes and VP7 serotypes in South African regions, 1516
VP4 and VP7
distribution among Israeli children, 1421
Rubella virus
E1 fusion proteins
detection of antibodies, 270
enzyme immunoassays
evaluation of Cobas Core Rubella IgG EIA recomb, 2392
PCR
detection of RNA in clinical samples, 1075

Salivary levels
selected organisms
influential factors for older individuals, 2550
Salmonella enteritidis
detection of IS*200*
value for tracing avian isolates, 173
PCR
analysis of isolates, 987
plasmid profiling
value for tracing avian isolates, 173
pulsed-field gel electrophoresis
molecular analysis, 1070
ribotyping
molecular analysis, 1070
value for tracing avian isolates, 173
Salmonella panama
molecular subtyping
scheme, 1206
Salmonella spp.
media
evaluation of five new plating media for isolation, 802
PCR-oligonucleotide ligation assay
rapid detection of serovars, 2888
Salmonella typhi
bacteriuria
significance, 1791
blood culture systems
evaluation and comparison for bacteriological isolation, 868
nested PCR
detection by reaction based on ViaB sequence, 775
pulsed-field gel electrophoresis
analysis of isolates from Southeast Asia, 1938
Salmonella typhimurium
detection of IS*200*
value for tracing avian isolates, 173
PCR-hybridization
detection from rectal swabs of experi-

mentally infected beagles, 1292
plasmid profiling
value for tracing avian isolates, 173
ribotyping
value for tracing avian isolates, 173
short cultivation
detection from rectal swabs of experimentally infected beagles, 1292
Scabies
lesions
microbiology of secondary bacterial infection, 2139
Scedosporium prolificans (*inflatum*)
nosocomial outbreaks
four fatal cases in leukemic patients, 3290
Schizophyllum commune
fungus ball of the lung
diagnostic difficulties caused by nonclamped isolate, 1979
Sendai virus
diagnostic assays
expression of nucleocapsid protein in a baculovirus expression system, 2007
Septata intestinalis
AIDS
in vitro growth of the microsporidian from a patient with disseminated illness, 463
AIDS patients
in vitro culture and serologic and molecular identification of isolate from urine specimen, 930
Serogroup C meningococcal disease
molecular epidemiology
outbreak in a university community, 2209
Serotyping
N. gonorrhoeae
differentiation of isolates, 1039
Serpulina hyodysenteriae
monoclonal antibodies
production and characterization of those specific for lipooligosaccharide, 2145
serotyping
use of monoclonal antibodies, 2519
Serpulina innocens
serotyping
use of monoclonal antibodies, 2519
Serratia marcescens
ribotyping
comparison with biotyping for use in studying molecular epidemiology, 2637
Serratia plymuthica
human infections
report of six cases, 275
Sheep-associated malignant catarrhal fever virus
competitive inhibition enzyme-linked immunosorbent assay
investigation of infection in ruminants, 2048
PCR
investigation of infection in ruminants, 2048
Shell vial assays
cytomegalovirus viremia
detection in transplantation recipients, 2984
Shigella dysenteriae
serotypes 14 and 15
detection and designation, 1423
Shigella sonnei
molecular typing methods
analysis of clonal relationships among isolates, 1779
outbreaks of infection
traced to imported iceberg lettuce, 609
urinary tract infections
symptomatic, 2222
Shigella spp.
serogrouping
evaluation of commercial antisera, 1997
Single-strand conformation polymorphism
M. tuberculosis
detection of rifampin resistance by comparison with dideoxy fingerprinting, 1617
Single-strand conformation polymorphism analysis
California serogroup bunyaviruses
differentiation of small RNA segments, 3179
Snow Mountain agent-like calciviruses
capsid protein
expression, self-assembly, and antigenicity, 1452
Southern hybridization
small round-structured viruses
differentiation, 64
Sparfloxacin
susceptibility testing
suggested modifications for criteria, 146
Spirochetes
differential infectivities
vector ticks of mice chronically infected by the agent of Lyme disease, 3164
Spirochetosis
human and porcine intestinal
relationships of certain canine weakly β-hemolytic intestinal spirochetes, 2212
Staphylococcus aureus
agglutination testing
evaluation for identification of oxacillin-susceptible and -resistant strains, 1333
arbitrarily primed PCR
multicenter evaluation for typing of strains, 1537
blood culture bottles
rapid identification by classic 2-h tube coagulase test, 50
epidemic multiresistant clone
geographic spread in Brazil, 2400
fibrinogen-binding protein
expression and incidence of highly conserved *fib* gene among clinical isolates, 2347
methicillin resistant
comparison of MIDI Sherlock system and pulsed-field gel electrophoresis in characterizing strains from recent hospital outbreak, 2723
comparison of National Committee for Clinical Laboratory Standards disk test and screen plate for detection of low-expression-class strains, 1909
evidence for geographic spread of clone between Portugal and Spain, 1243
food-initiated outbreak analyzed by phenotyping and genotyping, 1121
molecular genotyping by fluorophore-enhanced repetitive-sequence PCR, 2141
phenotypic characterization of epidemic versus sporadic strains, 1769
unusually large number of clones in a Portuguese hospital, 2032
molecular population genetic analysis
analysis of strains recovered from cows, 376
pulsed-field gel electrophoresis
replacement for bacteriophage typing, 551
restriction endonuclease analysis
in vivo stability and discriminatory power for typing of methicillin-resistant strains, 2022
Staphylococcus caprae
ribotyping
isolates isolated as human pathogens and from goat milk, 888
Staphylococcus intermedius
coagulase positive
association of catheter-related bacteremia, 2508
Staphylococcus spp.
methicillin resistant
immunological detection of penicillin-binding protein 2′, 2498
multiplex PCR
specific detection of methicillin-resistant species, 2864
STAPH-IDENT system
4-year prospective study for reference identification, 96
Stenotrophomonas (*Xanthomonas*) *maltophilia*
arbitrarily primed PCR
genomic fingerprinting of epidemic and endemic strains, 1289
DNA macrorestriction analysis
molecular typing, 2195
PCR
epidemiological typing, 912
random amplified polymorphic DNA analysis
molecular typing, 2195
susceptibility testing
comparison of E test and agar dilution, 1428
Stomatococcus spp.
STAPH-IDENT system
4-year prospective study for reference identification, 96
Streptococcus agalactiae
multilocus enzyme genotyping
characterization and identification of multiple virulent clone families, 2576
Streptococcus milleri group
ID 32 Strep system
species identification of members isolated from the vagina, 1592
"*Streptococcus milleri*" group
rapid test systems
identification of isolates to the species level, 2704
Streptococcus pneumoniae
cefixime
methods for predicting susceptibility, 1031
DNA fingerprinting

five different techniques for molecular typing of strains, 1606
PCR
detection in whole blood, 596
penicillin resistant
comparison of susceptibility testing methods for detection, 229
detection with commercially available broth microdilution panels, 1804
pneumococcal capsular types
serological properties, 2759
sampling techniques
evaluation for detection of upper respiratory tract carriage among healthy infants, 3077
serotype distribution
invasive infections over 16-year period in Brazil, 2789
susceptibility testing
comparison of methods for detection of penicillin-resistant strains, 229
E test for penicillin, cefotaxime, and ceftriaxone, 2334
susceptibilities and serotypes of invasive strains in Switzerland, 3159
types 19A and 19F
common capsular epitopes shared with *S. suis* capsular type 8, 2492
Streptococcus porcinus
human sources
identification, 385
Streptococcus pyogenes
M serotypes
molecular subtyping of those causing disease, 2850
random amplified polymorphic DNA analysis
characterization of strains in skin sores of Aboriginal Australians, 1471
Streptococcus spp.
beta-hemolytic
cost-effective method for rapid identification, 1154
endocarditis
identification of blood and oral isolates from patients, 1399
group G
M or M-like protein gene polymorphisms, 356
nutritionally deficient
difficulties in identification, 1022
PCR-based hybridization
development of protocol, 1296
Streptococcus suis
agglutination
sialic acid-binding lectins, 2220
ribotyping
detection of genomic heterogeneity in isolates, 968
Streptomyces spp.
endocarditis
prosthetic aortic valve; case report, 3335
Susceptibility testing
anaerobic bacteria
E test and Oxyrase agar culture compared by using erythromycin, azithromycin, clarithromycin, and roxithromycin, 1366
azoles
comparison of Etest and National Committee for Clinical Laboratory Standards broth macrodilution method, 535
broth microdilution
effect of increasing inoculum sizes of pathogenic filamentous fungi on MICs of antifungal agents, 1302
C. albicans
comparison of methods for testing fluconazole-resistant and -susceptible strains, 3154
candidemia cluster
contribution of molecular typing methods and antifungal testing with cluster in burn care unit, 3278
colorimetric assays
yeasts, 915
disk diffusion
suggested modifications for criteria for levofloxacin and sparfloxacin after tests with predictor panel of ciprofloxacin-resistant isolates, 146
E test
comparison with broth microdilution and disk diffusion for testing of coryneform bacteria, 1318
errors from incorrect orientation of strips, 1966
Enterococcus spp.
commercial and reference methods for detection of vancomycin resistance, 1524
Etest
comparative evaluation with other methods for rapidly growing mycobacteria, 1760
gel microdrop encapsulation
rapid assay for mycobacterial growth, 1720
levofloxacin
results predicted from results for ciprofloxacin and ofloxacin, 215
M. tuberculosis
rapid testing of H37Ra by flow cytometry, 1231
mupirocin E-test
comparison with standard agar dilution techniques, 2254
S. aureus
evaluation of Rapid ATB Staph, 2395
S. (X.) maltophilia
comparison of E test and agar dilution, 1428
S. pneumoniae
comparison of methods for detection of penicillin-resistant strains, 229
tilmicosin
proposed quality control guidelines, 331
yeasts
comparative evaluation of macrodilution and Alamar colorimetric methods, 2660
Syphilis
CAPTIA Syphilis G
comparison with rapid plasma reagin test for detection, 1829

Taenia crassiceps
cysticerci
antigens used in diagnostic assays, 3324
Taenia saginata
egg detection assays
use of species-specific DNA probes, 1283
Taenia solium
egg detection assays
use of species-specific DNA probes, 1283
Taylorella equigenitalis
DNA fingerprinting
genetic homogeneity from Norwegian trotting horses, 233
Theileria annulata
PCR
detection in blood samples of carrier cattle, 2665
Tilmicosin
susceptibility testing
proposed quality control guidelines, 331
Torulopsis glabrata
azoles
susceptibilities by microdilution colorimetric and macrodilution broth assays, 2612
Toxoplasma gondii
PCR and tissue culture
detection in cerebrospinal fluid and blood of human immunodeficiency virus-seropositive patients, 2421
Toxoplasmosis
acquired and congenital
diagnosis by detection of anti-toxoplasma immunoglobulin A antibodies by two methods, 2206
AIDS patients
quantitative competitive PCR with bronchoalveolar lavage fluid for diagnosis, 1662
immunoblotting
diagnosis of congenital infection and relationship with other methods, 1479
Treponema pallidum
enzyme immunoassays
recombinant antigen-based assay for screening of antibodies in blood bank routine, 525
genital ulcers
comparison of molecular and microscopic techniques for detection, 180
Triazoles
D0870
broth microdilution testing, 1094
Trichosporon beigelii
glucuronoxylomannan-like polysaccharide antigen
detection and quantitation from isolates and implications for pathogenicity, 126
Trichosporon cutaneum
taxonomy
taxonomic position of deep-seated, mucosa-associated, and superficial isolates from trichosporonosis patients, 1368
Tritrichomonas foetus
immunoaffinity-purified surface antigen
bovine vaginal antibody responses, 1158
PCR
conserved and variable DNA sequences of isolates from Saskatchewan, Canada, 1308
Tropheryma whippelii
PCR
detection of DNA in an AIDS patient, 1354

Trypanosoma cruzi
Chagas' disease
high specificity of epimastigote ribonucleoprotein as antigen in serodiagnosis, 1456
use of 24-kDa recombinant protein to monitor cure, 2086
serodiagnosis
utility of recombinant flagellar calcium-binding protein, 2082
Tuberculosis
Amplicor *Mycobacterium tuberculosis* test
multicenter study for diagnosis, 3106
chromosomal DNA fingerprinting analysis
epidemiological study in French Polynesia, 1899
molecular epidemiology
Denmark, 1992, 2077
Tuberculous meningitis
cell–enzyme-linked immunosorbent assays
early diagnosis, 3040

Urinary tract infections
susceptibility testing
direct testing for acute infections in women, 2316
Urine culture methods
EZ Streak
evaluation of new, semiquantitative screening culture device, 1351

Vancomycin
Enterococcus resistance
detection by Alamar MIC system, 791
Varicella-zoster virus
direct immunofluorescence
utility, along with that of culture, for detection in skin lesions, 2792
PCR
identification of strains, 658
Vibrio cholerae
non-O1
characterization of serogroups obtained from outbreak of diarrhea in Lima, Peru, 2715
O1
new variant from clinical isolates in Amazonia, 114
O139
first outbreak, letter to the editor, 1972
O139 Bengal
evaluation of DNA probes for specific detection, 2186
isolation of sucrose late-fermenting and nonfermenting variants and implications for diagnosis of cholera, 1339
O139 synonym Bengal
development and testing of monoclonal antibody-based rapid immunodiagnostic test kits, 2935
evaluation of Bengal SMART for rapid detection, 732
rRNA gene restriction patterns
molecular epidemiology of toxigenic strains from Bangladesh, 2833
Viridans group streptococci
rapid ID 32 Strep system
identification, 1215

Wild poliovirus type 3
molecular characterization
epidemic in The Netherlands, 1992 and 1993, 3252

Xanthomonas maltophilia
molecular epidemiology
colonization and infection in a hospital environment, 513

Yaws
immunoglobulin G enzyme immunoassay
evaluation for serodiagnosis, 1875
Yersinia enterocolitica
O:8
sources of sporadic human infection in Aomori Prefecture, Japan, 1253
pYV$^+$ strains
agglutination by agglutinin from *M. indica*, 772
Yersinia pestis
fiber optic biosensor
detection of fraction 1 antigen, 336
Yersinia pseudotuberculosis
ypm gene
geographical heterogeneity between Far East and Europe in prevalence, 3356

Zidovudine
human immunodeficiency virus type 1
reverse transcriptase sequence of paired isolates of cerebrospinal fluid and blood from patients during treatment, 352
Zygomycetes
zygospores
use in identification of rare or atypical fungi, 781
